Early-career wealth management & planning professional with experience across private banking and wealth management in London and Italy. Particularly interested in trusts and wealth-protection structures, succession and intergenerational planning, and suitability-led solutions for HNW and UHNW families.

WORK EXPERIENCE

Investment Management Intern | Banor Capital, London, UK

Jun 2026 – Present

- Assist in the review and management of private client, institutional and trust portfolios across discretionary and advisory mandates: portfolio monitoring and rebalancing support, preparation and follow-up of client review meetings, and client investment reporting.
- Prepare client-facing documentation underpinning the advisory and wealth planning process, portfolio reviews, annual-review materials and bespoke reports tailored to each client's mandate, structure and long-term objectives to the presentation standard expected by HNW/UHNW private clients.
- Built AI and automation tools embedded in the wealth management workflow: an in-house engine converting raw funds data into compliant, presentation-ready intern & client risk reports, replacing an external vendor; a knowledge agent on the firm's fund manager meeting notes; and a wealth-management agent for private client desk.

Private Banking Intern | Fideuram – Intesa Sanpaolo Private Banking, Verona, Italy

Apr 2024 – Sep 2024

- Supported a Private Banker in the day-to-day management of a €50M+ AUM book of HNW private clients and families: prepared portfolio reviews and rebalancing proposals, monitored allocations against mandates, and assisted with tax-aware advisory materials and MiFID II suitability documentations.
- Contributed to succession and wealth protection planning by analysing fiduciary mandates, trust vehicles and holding structures, supporting cross-border asset protection, inheritance-tax mitigation and intergenerational wealth transfer aligned with family governance objectives.
- Collated client documentation for annual review, new client take-on and advisory correspondence, and researched planning options for internationally mobile clients, building bespoke proposals focused on long-term capital preservation and downside protection.

Tax & Accounting Intern | Studio Commercialista Andrea Marzolo, Verona, Italy

Apr 2023 – Jun 2023

- Assisted with the preparation of financial statements and tax compliance filings for 10+ family-owned SMEs, working directly with private business accounts, corporate documentation and statutory deadlines.
- Gained early exposure to the Italian tax and corporate framework relevant to entrepreneurial families, holding structures, business transfers and tax treatment of private assets, the foundation for assessing illiquid wealth within a holistic HNW plan.

EDUCATION

MSc Banking and Finance – Distinction | Queen Mary University of London, UK

Jan 2025 – Mar 2026

- Designed a UHNW UK-Italy relocation strategy integrating trusts, fiduciary vehicles, Italy's Special Tax Regime and double-tax treaties to optimise asset allocation and protection and intergenerational wealth transfer.
- Authored a Distinction-level valuation thesis (Capgemini SE), translating analysis into risk-adjusted recommendations aligned with the long-term capital-preservation goals of private clients; applied deal-appraisal skills to advising entrepreneurial families on liquidity events and corporate-to-personal wealth transitions.

BSc Economics & Management – 103/110 (2:1) | Università Cattolica del Sacro Cuore, Milan, Italy

Sep 2021 – Sep 2024

- Financial accounting, corporate law and EU financial regulation; thesis on ECB/BoE post-Brexit credit and liquidity risk management, translated into defensive asset-allocation strategies for HNW portfolios.

Summer Programme, Finance & Financial Markets – 65 (2:1) | King's College London, UK

Jul 2023

LEADERSHIP & PROJECTS

Head of Sponsorships | United Italian Societies (UIS), London, UK

Sep 2025 – Present

- Manage relationships with financial institutions and private companies to secure funding for 60+ societies (~11,000 students); oversee multi-currency cash-flow allocation and budget forecasting, discretion and interpersonal skills central to UHNW client advisory.

Equity Analyst – Top 5 of 200+ candidates | Queen Mary University Investment Fund (QUMMIF)

Feb 2025 – Jan 2026

- Authored and defended a buy-side equity thesis (Cerillion Plc, DCF and relative valuation) before an industry panel, securing capital allocation from the fund's £40,000 live portfolio.

UBS Banking Academy – Private Markets Programme – Top 10 globally | AmplifyME, London, UK

Jul 2025
